

Syrenah Stein syrenah@live.com 214-912-9116

Engineer with 10+ years of experience spanning full-stack development, database administration, cloud infrastructure, and data engineering, across finance, energy, and technology. Extensive hands-on experience with Oracle database administration, combined with a love for React/UI development. Experienced in building scalable enterprise applications. Proven ability to deliver secure, high-performance, production-ready solutions in complex enterprise environments. Ready to relocate for an exciting company

Certifications

AWS Certified Cloud Practitioner

AWS Certified Solutions Architect - Associate

Professional Experience

JPMorgan Chase, Houston, TX Apr 2021 - Present

Software Engineer II | Feb 2023 – Present

Software Engineer I | Apr 2021 – Feb 2023

- **Lead UI developer** for greenfield “Smartbuzz”, a **React** UI that empowers data scientists and other users to create queries and **Highcharts** visualizations. Lead discussions with UX. CSS NodeWebpack
- UI enhancements for Sales Interactions tracking web apps using **Zustand** and **Redux and Vite**
- Develop **Java Spring** REST API microservices backend with **Junit** testing.
- Enhance **Python Flask** backend services and design **GraphQL** endpoints to enable flexible, data access.
- Enhanced Python document-parsing **ETL** pipelines to run **AI/ML** LLM and Vector models across multiple content sources and map insights to **600+** stocks. **AWS Glue** serverless jobs on S3 to enable Athena queries.
- Refactor Data Science Team Jupyter notebooks and scripts into object-oriented Python applications.
- Support infrastructure and AWS environments using **Kubernetes** and **Terraform Iac**.
- Optimized CI/CD pipelines using Jenkins, Groovy, Docker layer caching, Kubernetes, and Apache Airflow

Kinder Morgan, Houston, TX

Developer | Aug 2019 – Apr 2021

- Designed and delivered web applications using **C# MVC**, **AJAX**, **jQuery**, **CSS/Bootstrap**, implementing database-level security.
- Administered Jira projects and maintained **Groovy** scripts to improve workflow automation, role-based access, and permission governance.
- Built **C#** console applications and WinForms tools to replace manual business processes.
- Developed **SQL** stored procedures and **SSRS** reporting to enable analyst decision-making with consistent, repeatable outputs.

Texas Instruments, Dallas, TX

Developer / Oracle DBA | May 2015 – Jul 2019

- Supported and developed new **PL/SQL** processes in a **SOX-controlled** Oracle db

- Developed and provided 24-hour on call support for scheduled automation jobs in **Python**, **ksh**, and **Perl** within a Unix environment, improving operational continuity.
- Diagnosed SQL performance bottlenecks impacting TI.com load time; tuned queries and denormalized data where appropriate to reduce latency and improve user experience.
- Administered database privileges and managed user requests.
- Led database cleanup and rationalization, deleting obsolete jobs and removing **400+** unused objects.

Kinder Morgan, Houston, TX

Application Development Intern | May 2014 – Aug 2014

- Developed UI using vanilla **JavaScript**, **Bootstrap** and **jQuery** for a budgeting application and KinderMorgan.com enhancements.

Education

Texas A&M University - College Station - **Bachelor of Business Administration**, Management Information Systems (MIS) 3.49 , **2015**

University of Texas at Dallas – Online AI and Machine Learning Bootcamp, Expected Completion: 2027
